

## **SEGULA Technologies: 3200 recruitments throughout the world so far- still 800 vacancies**

***The engineering group still proposes numerous opportunities on the whole of its activities***

**Paris, October 3<sup>rd</sup> 2017** – SEGULA Technologies, engineering group helping boost competitiveness within all of the major industrial sectors, maintains its growing recruiting stance

Because of its strong growth, the company is on the lookout for new talents. Since January 1<sup>st</sup> 2017, the group has hired 3200 candidates throughout the world.

In France, the group has already hired 1600 candidates on the whole of its activities – with still about 800 vacancies:

- **300 engineers et technicians are wanted in the Automotive sector :**
  - Architects,
  - Software and hardware development engineers,
  - Wiring designers,
  - Electronics engineers,
  - Draughtsmen and designers,
  - Thermodynamics engineers,
  - Test and measurement engineers,
  - Project managers,
  - Process engineers,
  - Engine control engineers,
  - Calculation engineers
  
- **About 400 vacancies are still open in the Naval, Rail, Energy and Oil&Gas setors** in the whole of France :
  - Pipework engineers,
  - Mechanical engineers
  - EIA (Electricity, Instrumentation and Automated systems) engineers,
  - General Facilities (Autocad / PDMS / Microstation) and Mechanical (Catia / Solidworks / Créo) design-draughtsmen and persons with experience on joint teams for nuclear work.

**About half of these vacancies (200) are within the Energy and Oil&Gas sectors:**

- Pipework engineers,
  - EIA engineers,
  - Process engineers
  - We also have numerous vacancies for design/draughtsmen at all levels and for site preparation and supervision work (pipework/EIA)
- **About 100 vacancies are open in the Aeronotic sector** in the whole of France and abroad:
    - Process engineers involved in technical process improvement
    - Tooling development expert engineers and technicians for production optimisation in the aeronautical field.
    - Design office digital simulation engineers and technicians for equipment operating conditions (aerodynamics, propulsion, noise...)
    - Design office digital simulation engineers and technicians for equipment design
    - Process engineers
    - Project managers
    - Production support technicians (supply-chain, procurement, quality)
    - Maintenance technicians and engine and equipment mechanical experts, particularly for helicopters
    - Navigability experts

Segula Technologies International has already hired 1600 candidates and carries on growing.

**All the vacancies are available on the website**

**About SEGULA Technologies**

SEGULA Technologies is an engineering group with a global presence, helping boost competitiveness within all of the major industrial sectors: automotive, aeronautics, energy, rail, naval, pharmaceutical and petrochemical. Present in 26 countries, with its 1000 offices worldwide, the Group fosters a close relationship with its customers thanks to the expertise of its 11,000 employees. A leading engineering specialist placing innovation at the heart of its strategy, SEGULA Technologies conducts large-scale projects, ranging from studies to industrialisation and production.
