

## SEGULA Technologies Launches its North America Tech Center in Downtown Toledo

- *Engineering group SEGULA Technologies opens a new Tech Center at the Innovation Post (former Jefferson Center) in Toledo, Ohio.*
- *The SEGULA Tech Center will provide innovative, turnkey engineering and solutions to advance clean and intelligent mobility and to support local industrial customers in the modernization of their factories by integrating automated production lines.*

**Toledo, OH – June 23, 2025** – SEGULA Technologies, a global leader in engineering and a catalyst for innovation across industries, proudly announces the opening of its **North America Tech Center** at the Innovation Post - a newly revitalized historic landmark in the heart of downtown Toledo, Ohio.

Housed in the former Jefferson Center, a building that has stood for over a century, the new center symbolizes a bold fusion of legacy and forward-thinking.

The opening of this new office marks a major milestone in SEGULA Technologies' North American growth and reinforces the Group's commitment to investing in local, customer-centric engineering hubs.

*"Toledo offers the perfect blend of innovation, talent, and strategic location," said Vijay Soni, CEO of SEGULA Technologies USA. "Launching our Tech Center here not only strengthens our ability to deliver cutting-edge solutions, but also deepens our connection to the evolving needs of the mobility sector."*

The **SEGULA Tech center will focus on advancing clean and intelligent mobility**, with specialized expertise in automotive drivetrain and transmission systems, aligning with the industry's shift toward sustainable transportation solutions. The center will also offer a range of activities dedicated to the **integration of production lines** for all industrial sectors.

As part of a broader push to accelerate its North America presence, SEGULA has already **doubled its US business volume in the past year** and plans to hire more than 400 professionals located in its key engineering centers in Michigan, Ohio, North Carolina, and Texas.
